Image Editing Project

Ashton Woodson

Tools Used:

Pixlr.com

Chromebook

Very Simple!

Image 1 (Before)

Image 1 (After)

Tools Used:
Added Picture
I added a border but changed the color to black
I fade the water in certain places to focus on the glisten of the water in the middle of the picture behind the the angle
I added also made the image look like it was painted by canvas overlay
I added a old paper overlay to make give it that old vintage look

Image 2 (Before)

Image 2 (After.....For Show)

Just to show the other image I created

Image 3 (Before)

Image 3 (After…..For show)

Just to show the other image I created
