

Art 2

By Aliya Rouine

Quarter 1 Project

This is my quarter 1 project. We were learning about color wheels and different ways to show off the colors and shading. I chose to display mine as a flower.

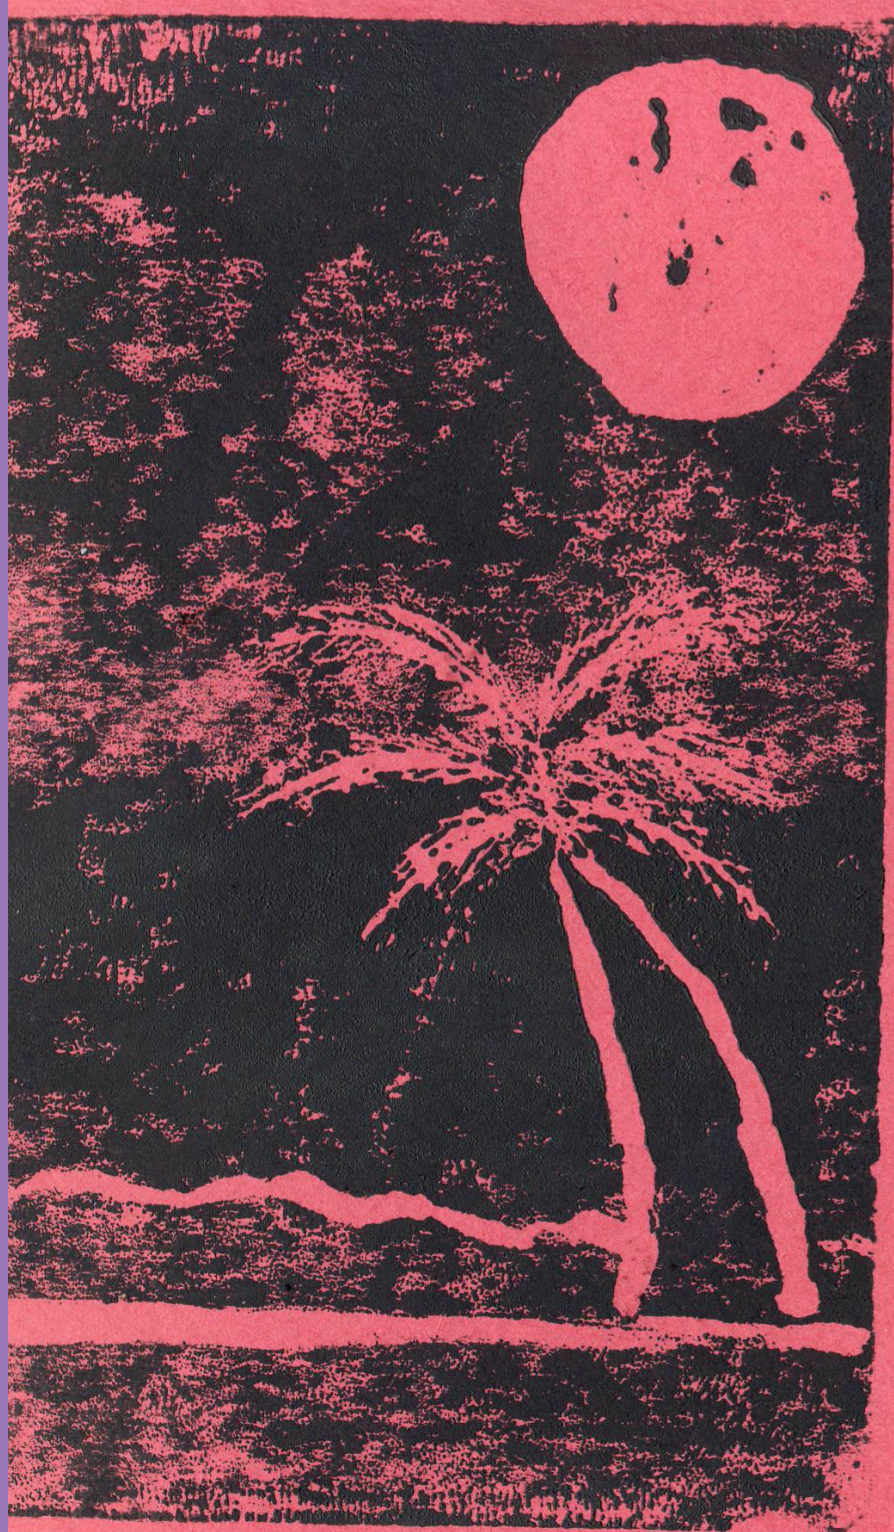

Quarter 2 Project

For my quarter 2 project I chose limited palette painting. We could only use three colors to paint the picture. I used red, white, and yellow. I was able to learn about all the colors they made with a color chart. I then used the colors to paint the picture.

Quarter 3 Project

For the last project I chose linoleum cut. I chose a beach to draw for my design. It took a few try's but these were the best ones.

REFLECTION

Something I learned this year with making art is it takes a lot of patience. I did know this but I learned somethings are harder then they look. When I made lanolium cut, I never used actual lanolium before. At my old school when I did linulium cut, I used the softer one cause I was younger. A weakness I found with myself is not being able to step outside my comfort zone more than I wanted to. I wish I explored more with my work then sticking to things I usually draw and I know I can already do.

CONTINUED

Some art that I want to make is pottery. I have done it once but I would love to try it again. Art that inspires me is photography. I love taking pictures and I love drawing based on a photograph. The project I am most proud of this year is my limited palette painting. I have never tried it before and I am happy with how it turned out. I liked the shadings and how realistic I made it with the three colors.
