

# WEALTH FACTS IN U.S

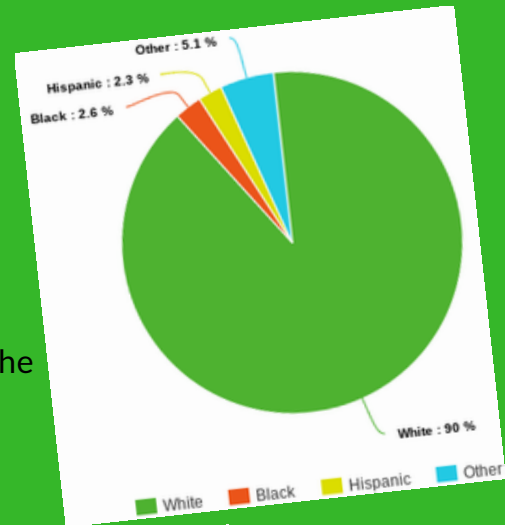

These are some facts about wealth in the U.S. that people need to know about. These facts affect everyone, so everyone should know about them.

BY: Gabrielle, Jorge, Dymair and Alaina

## 1 WHO OWNS WHAT?

White families hold 90% of the national wealth. Hispanic families hold 2.3% of the national wealth. Black families hold 2.6% of the national wealth. The remaining 5.1% of the national wealth is held by others (natives, Asians, Pacific Islanders, multi-racial, etc.).

## 2 WHO HAS A JOB?

While the nation's official unemployment rate stands at 9.7 percent, it is nearly 16 percent among African Americans and 12.4 percent among Latinos.

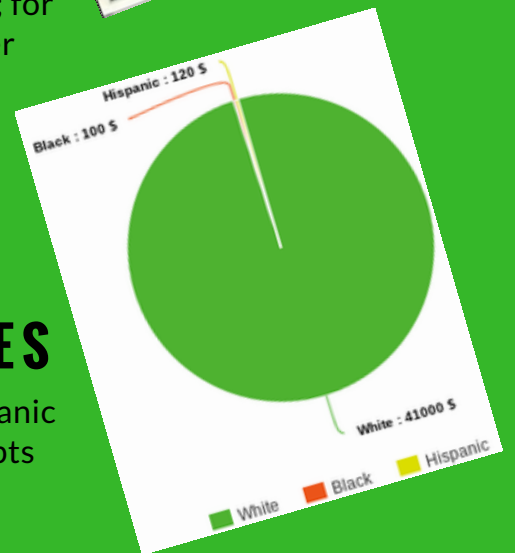

## 3 HOW MUCH DO YOU GET?

For every dollar of wealth owned by the typical white family, the typical family of color owns only 16 cents.

## 4 WHAT ABOUT US?

The median wealth for single black women is only \$100; for single Hispanic women, \$120. This compares to just over \$41,000 for single white women. About a third of single Hispanic women and one-fourth of single black women have no checking or savings account.

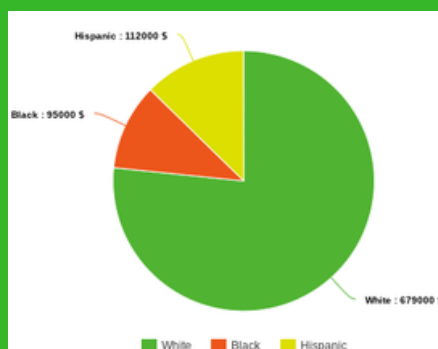

## 5 BLACK AND HISPANIC FEMALES

The report found nearly half of all single black and Hispanic women have zero or negative wealth, meaning their debts exceed all their assets.

## 6 AVERAGE FAMILIES WEALTH BASED ON RACE

The average white family has a net worth of \$679k. The average Hispanic family has a net worth of \$112k. The average black family has a net worth of \$95k.

## BLACK PEOPLE LEARN LESS THAN WHITE PEOPLE REGARDLESS OF EDUCATION

White pupils always earn about \$4 more than their black peers for doing the same job.
