# SUPERIOR COURT JUDGE

A judge of the Superior Court is given lots of responsibility within the Pennsylvania Court System. They commonly handle criminal and civil cases and are often called upon to deal with court cases relating to children and families. Superior Court Judges serve in 10 year terms and are elected in Partisan elections or Retention elections.

## WHY CALDERA?

Caldera is a long time supporter of the Democratic party. They have ample experience with community leadership, organization, and maintenance. If elected as Superior Court Judge of Pennsylvania, they will be sure to utilize their skills in order to achieve victories for the people. Caldera is a candidate who will prioritize fairness above all else and pay special attention to the needs of children and families.

## TOP PRIORITIES

### REDUCED CRIME RATE

We want to reduce the crime rate within Philadelphia by preventing crime before it happens. This includes passing legislation that would ensure a better infrastructure for Pennsylvanians.

### SOCIAL WORK

Ensuring that citizens have access to all that they need should be the first priority of their government. Increased access to healthcare, education, and housing is not only a way to curve crime, but also a necessity to building a better community.

### RACIAL EQUALITY

Police brutality in Philadelphia is an evident problem. Our campaign hopes to tackle not only the issue of the Philadelphia Police Department's racism, but also address the more sinister institutional problems that leads to the persecution of Black citizens.

### FAMILY WELFARE

A Superior Court Judge is often assigned cases concerning children and families. All too often, the justice system is inadequate in addressing cases of domestic and child abuse. Our court swears to play a more active role in wellness cases so that we may aid the victims, rather than worsening their situation.

### EQUITY IN COURT

An oft-neglected aspect of the justice system is a full examination of a crime's circumstance. Not all criminals are created equal and often are products of circumstance. It's our responsibility to show humanity to all who enter the courtroom.
