
HOW TO PREPARE FOR AN EARTHQUAKE

Use this infographic to have knowledge on how best to act during an earthquake.

STEP 1. FIND LOVE ONES

Whether the earthquake is big or small gather love ones to ensure safety

STEP 2. FIND SHELTER

Find a safe place to stay while the earthquake still happens, a basement or underground shelter is best

STEP 3: THE AFTERMATH

After you feel like it's safe to come out, watch out for debris when stepping outside. make sure you and your loved ones are safe and unhurt before helping others.
