

GLOBAL WATER CRISIS

**SAVE WATER
SAVE WORLD**

KYLEE, CYNİ, GABE, PATRICK

IMPORTANCE OF WATER

Access to safe water can protect and save lives, just because it's there. Access to safe water has the power to turn time spent into time saved, when it's close and not hours away. Access to safe water can turn problems into potential: unlocking education, economic prosperity, and improved health.

EFFECTS OF GLOBAL WATER CRISIS

Climate change is affecting water quality and access is and climate change is affecting water and polluting it. Water is essential to life, yet 771 million people in the world - 1 in 10 - lack access to it. Water is essential to life, yet 771 million people in the world - 1 in 10 - lack access to it. Since water is so important to live to have it polluted and messed up is bad.

GLOBAL ISSUE

Two-thirds of sub-Saharan Africa rely mostly or completely on surface water -- water on the surface of continents such as in a river, lake, or wetland. Surface water is often highly polluted and not considered a reliable and safe source of drinking water.

EFFECTS OF GLOBAL WATER CRISIS

When the water is dry, people are not enough to drink, wash, drink, feed feeding, and feed. In addition, it may lead to fatal diarrhoea diseases, such as insufficient hygiene-2.4 billion problems-Cholera and intestinal this, and other diseases.

**WATER CRISIS A
ENVIRONMENTAL ISSUE??**

**ENVIRONMENTAL JUSTICE ISSUES
AND EXAMPLES INCLUDE
INADEQUATE ACCESS TO HEALTHY
FOOD, INADEQUATE
TRANSPORTATION, AIR AND WATER
POLLUTION, AND UNSAFE HOMES.**
