Goal

My goal for this senior project was to learn a skill that will help me find my major for college so that I can be able to do something I like when I’m done with school and ready for my future jobs. I decided to major in 3D visual arts and animation.

Reflections

What I have learned in this capstone project is that if you put your mind into something you can be able to achieve something. I am glad that with this project, I was able to find my major so that now I know what to do when I go to college. Thanks.
