Jayden Johnson - Poem

The land is in a constant state of birth,
Giving life to all who live on Earth.

Our carelessness and fears

Have taken a toll over the years.

Her land is parched and scorched

As man continues to light the torch.

We continue a want of speed and ease,

All while our pesticides kill trees.

It's time to wake up and see Mother Earth's pain.

Humanity's selfishness has become insane.

Soon their cries will turn to gloom,

And man will cause its own doom.

Effects of Climate Change

Hotter temperatures. As greenhouse gas concentrations rise, so does the global surface temperature. ...

More severe storms. ...

Increased drought. ...

A warming, rising ocean. ...

Loss of species. ...

Not enough food. ...

More health risks. ...

Poverty and displacement.

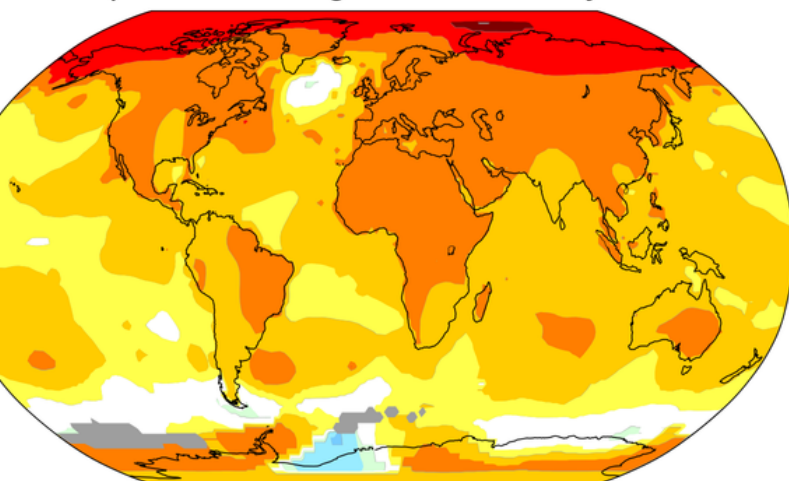

Causes of global warming

- carbon pollution
- climate change
- energy.

Global warming is caused when carbon dioxide and other air pollutants collect in the atmosphere and absorb sunlight and solar radiation that have bounced off the earth's surface.

Temperature change in the last 50 years

2011–2021 average vs 1956–1976 baseline

-1.0 -0.5 -0.2 +0.2 +0.5 +1.0 +2.0 +4.0 °C

Ways to stop climate change

Power your home with renewable energy. ...

Weatherize, weatherize, weatherize. ...

Invest in energy-efficient appliances. ...

Reduce water waste. ...

Actually eat the food you buy—and compost what you can't. ...

Buy better bulbs. ...

Pull the plug(s).

- Awareness about our environment published June 2011 - Sylvia stults

A poet that i chose who has a poem that addresses my social issue is Sylvia stults as her poem “Awareness about our environment” as it discusses pollution and how it has an effect on climate change. A quote from the poem that gives off an important message about pollution and how it effects climate change is " Mills pumping out iron, expelling yellow fumes, Airlines emitting caustic gases from fuels, Weapons of destruction tested at desolate sites. And this is the air that's to sustain life?".

“Warned” published October 15th by Sylvia Stults

Sylvia Stults poem “Warned” discusses how climate change has grown more down the years due to air pollution and how people not recycling makes it even worse for the environment. A quote from the poem that gives context on the social issue is "One can't blame pollution alone As they say, you reap what you've sown So let us plant a better seed Tear out old roots, cultivate, weed"

Contributor Page

I worked by myself on this project which I was able to finish all parts of my research and making sure everything was right with my project

Artist statement page

For my creative submission I did a collage that shows different images of climate change and how it affects the world, I also add how global warming is caused and the effects it has on the world. I also added ways that climate change can be stopped.
