

Technology & Society

1974

THE FIRST INTERNET SERVICE PROVIDER(ISP) IS MADE AND ITS CALLED TELENET(THIS WAS A PIVOTAL MOMENT BECAUSE IT ALLOWS WEBSITES TO BE MADE AND PEOPLE TO USE THE INTERNET, IN THE FUTURE IT LET PEOPLE LIKE MARK ZUCKINGBURG MAKE WEBSITES LIKE FACEBOOK AND INSTAGRAM, AND WITH HOW THE WORLD CHANGED, MORE WEBSITES AND FORUMS WERE BUILT FOR FIT THE INTEREST OF OTHERS.)

1983

THE DOMAIN NAME SYSTEM (DNS) IS MADE WHICH LETS USE .NET .COM .ORG .EDU AND .GOV INSTEAD F REMEMBERING AN ENTIRE IP ADDRESS(THIS WAS A PIVOTAL MOMENT BECAUSE WE NO LONGER NEEDED TO REMEMBER THE ENTIRE IP ADRESS ON AN WEBSITE. AND IT LETS US SHORTCUT TO THINGS LIKE OUR SCHOOL ASSIGNMENTS, WHAT TO EAT, AND THINGS THAT MAY OR MAY NOT INTEREST US. AND THINGS LIKE ADVERTISEMENT AND THE SPACE SHUTTLE LANDING LET THE INTERNET USE THAT AS A BASES FOR BIG COMPANIES LIKE NASA TO MAKE THEIR OWN FORUMS AND TELL THE PUBLIC WHAT THEY MIGHT BEDOING NEXT.

1991

THE WORLD WIDE WEB IS INTRODUCED T THE PUBLIC(THIS WA SPI ITOL BECAUSE EVERYONE WAS NOW ABLE TO USE THE INTERNET NOT JUST A SELECT FEW (THIS WAS THE START OF THE INTERNET AND YES IT KIND OF IMPROVED LIFE FOR US BECAUSE OF THE FUTURE AND POTENTIAL IT HOLDS. THE INTERNET IS A REALLY, REALLY BIG PART OF ALMOST EVERYBODIES LIVES TODAY IF YOU LIKE IT OR NOT, AND MAJOR EVENTS MADE IT CAPABLE OF CHANGING AND EVOLVING)

2005

WEBSITES LIKE YOUTUBE REDDIT TWITTER AND OTHERS ARE FOUNDED AND ADDED TO THE WORLD WIDE WEB (THIS IS PIVOTAL BECAUSE IT GAVE A MAINSTREAM SOURCE OF ENTERTAINMENT TO THE INTERNET. IT KIND OF IMPROVED SOCIETY BECAUSE TWITTER IS AN OPEN PLACE WHERE YOU CAN SAY ANYTHING ABOUT YOUR VIEWS, GOOD OR BAD. EVEN TODAY, THEY'RE STILL A MAINSTREAM SOURCE OF ENTERTAINMENT AND INFORMATION, AND HOW MAJOR EVENTS HAVE EFFECTED IT VARIES, BECAUSE TWITTER LETS US SEE WHAT OTHER PEOPLE MAY THINK, OR AN INSIDE LOOK AT THING LIKE WITH RUSSIA AND UKRAINE, AND YOUTUBE LETS THEIR VOICES GET TO A LARGER AUDIENCE OF PEOPLE.

2018

A significant rise in internet enabled wireless devices happens, which at the end of the year, reached a demand as high as seven billion devices.(this is a great step in the advancement of the internet because so many devices now of days require the internet and we use it as a daily tool.)

DOES TECHNOLOGY REALLY EFFECT HOW WE ACT?YES,WE FEEL AS THOUGH TECHNOLOGY SHAPES HOW SOCIETY ACTS AS A WHOLE.BUT IT CAN ALSO REFLECT SOCIETY AND CULTURE AT THE SAME TIME WITH EACH NEW INSTALLMENT. BECAUSE YEAH, THERE'S THINGS LIKE TIKTOK, WHICH PEOPLE HAVE REALLY GOTTEN CONSUMED IN AND DROPPED DOWN INTO THAT RABBIT HOLE.THERE'S ALSO THINGS THAT PEOPLE MAY NOT THINK CAN BE ADDICTING BUT IT TRULY IS;THINGS LIKE VIDEO GAMES,SOCIAL MEDIA,OR JUST WATCHING TV HAS STARTED TO CHANGE HOW PEOPLE THINK.FOR EXAMPLE WHY DO YOU THINK PEOPLE CONSIDER THE IPHONE BETTER THAN AN ANDROID OR PLAYSTATION BETTER THAN XBOX ITS ALL BECAUSE TECHNOLOGY AND OUR OWN BIAS HAS AFFECTED HOW WE THINK.

No, technology doesn't constantly improve our lives, sometimes it makes our lives harder since tech is taking our jobs. There's also a hole in the Ozone layer due to carbon emissions from cars. But there's also the good in technology that does improve our lives and makes them more accessible. Like heart medication, and phones. and tech also helps make things that can save and change lives too. It's more or less just that yeah it can make our lives easier. But we also have to face the consequences of our actions with what we build, make, and create because it sometimes hurts our environments
